

**COWTOWN CUSTOM COOKERS LTD.
COOKING AND SEASONING OF YOUR PLOW DISK**

Return to Website

The best way to season a Plow Disk is to cook with it!

After using Plow Disk, wipe out with a paper towel or dish towel, apply a coat of lard and store in trash bag for future use. It becomes better after each use.

- **Never cook at higher heat than necessary**
- **Clean your Disk while it's hot**
- **Never use soap or cleaner on your Disk**
- **Avoid wire brushes and scouring pads**
- **If needed, use hot water to clean then wipe dry with paper towel**
- **Apply coat of lard**
